Services

These are some of the services we offer in California.

24/7 Dispatch

Dispatchers work around the clock monitoring and maintaining client events. Monitoring gives a security system its true value. It case of an in-home emergency, one touch of the burglary, fire or medical emergency button in your keypad will get you a response from a live Safeguard on Demand operator. You don't have to worry about dialing 911 or calling your neighbors for help. Our dispatchers are trained and when needed to make, if an obstacle or behavior off of an abnormal amount of calls is detected, which may signal a fire, our monitoring center goes into action on your behalf.

Vehicle Patrol

Vehicle Officers patrol properties within their respected areas. Periodic Patrol inspections by a certain location, on nightly basis as frequent as the client deem necessary for for their needs. Patrol inspections vary in length but expected to be anywhere between 10-15 minutes. Patrol inspections are performed randomly, at times that does not work and may be day or night, as you direct. Times are agreed upon prior to commencement of service. Which includes, looking up the facilities, property, parking environment, crime deterrent, etc.

Corporate Security

Safeguard on Demand provides businesses, Law Firms, and government agencies with an "on-site" security team. The purpose of any security program is to protect life and property through deterrence, detection, and response. Deterrence is achieved through prevention of the problems resulting from these threats. A building is made to be used and the activities that go on inside or represent the businesses or of its people. Along with providing uniformed security personnel, Safeguard on Demand Security provides an assortment of full-service security programs.

Standing Patrol

Safeguard on Demand offers patrol entry points and identify provided issues to specific target areas. It assists who provides the client with a dedicated security officer, who provides access management, assists, generates protection and alarm verification. Security officers patrol and protect property against theft, vandalism, terrorism, and illegal activity or non-authorized activity on site.

Event Security

Crowd management, and guest services for major concerts, sporting events, festivals, conventions, award shows, private parties and corporate functions. Our Event Security Officers are professional members of management, at no extra charge, your discriminate from many stressors the inactivness and continued overcrowd of a organization. It is a corporate function that oversees and manages the client coordination of all functions within the company that are concerned with security, continuity and safety.

Construction Site Security

The need for on-site security is especially prudent in and around construction sites regardless of the size of the job. Laying a good foundation for a building does construction site has sub-contractors from many disciplines, which means each valuable equipment is available to need the experienced and monitor critical sites. Consequently, each sub-contractor is accountable for his own equipment, but that doesn't always relieve the general contractor from responsibility and nonexistent security. Properly planned and implemented security can make most potential and external losses.

Alarm Response

Safeguard on Demand professionals have an impressive response time. For triggered alarms, officers are equipped to handle situations for all levels, your safety is our concern. Safeguard on Demand can serve as your security system local contact if your alarm system is activated. Notify your alarm monitoring company to call us, as well as the appropriate local authorities. Safeguard on Demand can respond to any alarm system activation, no matter why your provider is. Our alarm response officers will be notified to respond to your alarm if it has be determined that the alarm call as well as the local authorities.

Gated community/Apartments/HOA

Safeguard on Demand personnel are well trained and perfect for posts that require a lot of client and public interaction. Safeguard on Demand recognizes the importance of controlling parking at gated community and multi-dwell apartments. We can provide professional personnel to monitor and manage your limited parking areas. Free video monitoring is available, and we have the right personnel for your property. Your tenants will feel more secure knowing that a professional security officer is monitoring the parking area. We strive to find permanent long-term personnel for our private communities clients.

Testimonials

"Their service is excellent and all staff are courteous and conscientious in carrying out their duties. Personnel are punctual and provide us with excellent reports. We will continue to use Safeguard on demand on our projects and would recommend them to others requiring security services."
